

## ROLLER CONVEYOR - CV-6-RC

## ROLLER CONVEYOR - CV-6-RC

The Packserv CV-6-RC roller conveyor, which is made in Australia, is an unpowered roller conveyor suitable for heavy and non-standard products or boxes. It has adjustable legs at either end to set it up as either level, or with an incline or decline.

This gravity roller conveyor provides essential material handling and the free moving, efficient and safe transportation of goods at any operational stage of a conveyor line.

Gravity roller conveyors are an economical solution ideal for moving heavy, and non standard shaped items, along processing and packaging lines.
