

3.6m(12ft) STAINLESS STEEL SLAT CONVEYOR - PSC-6-3.6

3.6m (12ft) STAINLESS STEEL SLAT CONVEYOR - PSC-6-3.6

The PSC-6-3.26 Stainless Steel Slat Conveyor, measures 3600mm (12ft) in length. It is designed for handling all types of containers regardless of their shape or material. It is made with the highest quality components, ensuring durability with minimal maintenance. It is also fully adjustable.

Containers are normally fed to the conveyor to assist with the other production line systems such as capping, filling, labelling, and sealing.

The modular design of the conveyor enables the equipment to be used with the entire Packserv equipment range, as well as those from other manufacturers. All of our gating and sensor systems are designed to be utilized with the guide rails used by this conveyor.

The 316 stainless steel frame is mounted on top of castors / wheels. This allows for unparalleled manoeuvrability. Furthermore, this machine features levelling jacks, on rubber feet, to allow traction and height adjustments of the entire conveyor to suit different production line requirements.

ADDITIONAL INFORMATION

- Mounted on lockable castors for easier manoeuvrability
- Conveyor comes with height adjusting jacks
- Variable speed control
- Conveyor is also available in other lengths including 2.4m (8ft) and 4.8m (16ft)
- Comes with adjustable guide rails
- Suitable for food, cosmetics, and pharmaceutical use
- Fast changeover of containers

3.6m (12ft) STAINLESS STEEL SLAT CONVEYOR - PSC-6-3.6

SPECIFICATIONS

Weight	65 kilograms (143lbs)
Length	3600mm (12ft)
Width	500mm (1.6ft)
Height	1200mm (4ft)
Operating Height	900mm (3ft) slat height, adjustable on frame
Slat Width	114.3mm (4.5in)
Conveyor Width	130mm (5in)
Power Supply	Single phase 240V, 10 AMPs (120V, 15 AMPs)
Construction Type	All 316 stainless steel and engineering grade plastics
Container Type	All containers regardless of shape or material that can stand on their own

Mounting	Lockable castors
Industries	All food, pharmaceutical, cosmetic and industrial applications
Noise	Low
Conveyor	430 stainless steel slat material (high-performance stainless steel)
Speed	Variable speed control
Guide Rails	Fully adjustable, height and width
Reversible	Yes
